DETAILED ACTION

Allowable Subject Matter

Claims 1-4, 6-18, 20-32, 34-39, 41-44, 50, 52-82, 84-95 and 97 are allowed.

The following is an examiner's statement of reasons for allowance: As argued by Applicants, Zhao et al teaches away from using a two plasma process to remove residue, and it discloses a one step hydrogen plasma which can be used to avoid the damage done by an ashing step. Zhao et al disclose ashing to remove photoresist masks and disclose in the background of the invention, that the ashing process results in the formation of residue. None of the cited references or combinations thereof, anticipate or make obvious, *inter alia*, "first contacting said opening with a first plasma to remove a portion of said polymer etch residue" and "stopping said first contacting" and "subsequently contacting said opening with a second plasma to remove the remainder of said polymer etch residue", as required by the present Claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
